TIME ALLOCATION

(Note: Questions 1-12 were adapted from the Young Lives Round 4 survey; we changed the reference period and expanded the activities list.)

If CR is part of the older cohort (aged ≥ 13), skip to the read statement before Q14.

If respondent attends school (when it is in session), read: Now I would like to talk about the activities you do on a typical school day. I want to talk about what you do, and how much time you spend doing it, on a typical school day.

If respondent does not attend school (when it is in session), read: Now I would like to talk about the activities you do on a typical week day. I want to talk about what you do, and how much time you spend doing it, on a typical week day.

Give the respondent 24 beans, and lay out the card illustrating the time use categories. Ask the respondent to distribute the beans according to the amount of hours spent on each activity, as you go through the list. Ask the respondent to round to the nearest hour (so that <30 minutes rounds down, and >=30 minutes rounds up). If the respondent was performing multiple activities at the same time, ask them for the main activity they were performing. If respondent is Muslim, and says prayed 5 times a day for 5 minutes, please round this up to an hour even though only 25 minutes. Make sure all beans are allotted before filling in the responses to this table. (DK for this section= -99; Refused this section= -97).
