PSYCHOSOCIAL/BODILY INTEGRITY: ADVERSE CHILD EXPERIENCE SCALE

Note: This scale is the ACEs (Blum, Li, and Naranjo-Rivera, 2019)

If CR is <18, read: Now we would like to ask whether you ever experienced any of these things. You may not want to tell us, and that is OK, but these are standard questions used in other international surveys and the reason we are asking is that it will help us better understand who you are and what you have experienced.

Do not read aloud : because CR is currently less than 18 years old, modify the wording of the following question to 'Anytime in your life' instead of 'When you were less than 18 years old'

If CR is >=18, read: Now we would like to ask whether you ever experienced any of these things when you were 18 or younger. You may not want to tell us, and that is OK, but these are standard questions used in other international surveys and the reason we are asking is that it will help us better understand who you are and what you have experienced.

PRIVATE REPORTING

Read: We are almost at the end of our interview. Now we would like to ask whether you ever experienced any of these things. You may not want to tell us, and that is OK, but the reason we are asking is this is part of an international survey that it will help us better understand who you are and what you have experienced. Please remember that the researchers are the only ones who will see your answers to the questions - your answers will not be shared with anyone else, including myself.

1. **Read** : I would now like to hand you the tablet. On the tablet are three icons. No other information is written on the tablet. The first is a check mark (✓), the second is an X mark (X), and the third is a circle (O). No matter what you have already told me, I would like you to click on the check mark (✓) if someone has ever touched you sexually against your will, or made you do something sexual that you didn't want to. This could have been a family member, teacher, friend, spouse, or any other person. Please click on the X mark (X) if this has never happened to you. If you do not want to answer, click on the circle (O). Once you have selected one, please click on the blue bottom at the bottom of the screen that says next. This will ensure that I do not know your answer.

Enumerator: show the CR the blue button to go to the next questions. Hand the CR the tablet to answer privately.
Wait patiently until they hand the tablet back to you.

2. **Read :** Thank you for answering, I know these are very private questions. I would now like to hand you the tablet one more time. On the tablet are three icons. No other information is written on the tablet. Earlier in the survey we talked about several different types of drugs, including many that are illegal. I would like you to put a click on the check mark (✓) if you have ever tried an illegal drug. Please click on the X mark (X) if you have never tried an illegal drug. If you do not want to answer, click on the circle (O). Once you have selected one, please click on the blue bottom at the bottom of the screen that says next. This will ensure that I do not know your answer.

Enumerator: show them the blue button to go to the next questions. Hand the CR the tablet to answer privately. Wait patiently until they hand the tablet back to you.
